

METU Informatics Institute Cognitive Science Seminars V: CogSci in Germany, CogSci in Turkey
May 23, 2014, KKM-A
SEMINAR PROGRAM

Opening Talks (09:00-09:30)

Nazife Baykal (Director of METU Informatics Institute)

Cem Bozşahin (Department Head, Cognitive Science Program)

Session 1 *Cognition and Interaction* (09:30-13:00)

Chair: Annette Hohenberger

09:30-09:45 Cengiz Acartürk (METU)

“Interaction through Eye Movements”

09:45-10:30 Christopher Habel (University of Hamburg, Informatics Department, Human Centered Computing Cluster)

“Geometric Concepts in Multimodal Interaction”

Coffee Break and Student Poster Session 10:30-11:00

11:00-11:45 Ipke Wachsmuth (University of Bielefeld, Cognitive Interaction Technology Center of Excellence)

“Embodied Cooperative Systems: From Tool to Partnership”

11:45-12:00 Didem Gökçay (METU)

“Computerized Cognitive Behavioral Therapy (cCBT) in Depression”

12:00-12:15 Murat Perit Çakır (METU)

“Multimodal Analysis of Joint Action and Distributed Cognitive Processes”

12:15-13:00 Katharina Scheiter (University of Tübingen, Knowledge Media Research Center)

“Mental Model Construction from Text and Pictures: Evidence for Construction of a Spatial Scaffold”

Lunch Break and Student Poster Session (13:00-14:00)

Session 2 *Cognition and Language* (14:00-16:30)

Chair: Cem Bozşahin

14:00-14:45 Reinhold Kliegl (University of Potsdam, Department of Psychology)

“The Dynamics of Eye Movements and Attention During Reading: Contributions from Language-Comparative Research”

14:45-15:00 Deniz Zeyrek (METU)

“Discourse Annotation and Discourse processing”

15:00-15:15 Annette Hohenberger (METU)

“Changing preference patterns for vowel harmony in Turkish infants in their first year of life”

15:15-16:00 Barbara Kaup (University of Tübingen, Department of Psychology)

“The Role of Sensorimotor Processes in Meaning Composition”

Coffee Break and Student Poster Session 16:00-16:30

Session 3 *Philosophy of Cognitive Science* (16:30-18:15)

Chair: Deniz Zeyrek

16:30-17:15 Tarek R. Besold (University of Osnabrück, Cognitive Science)

“The Limits of Thought? Complexity, computation, and cognition”

17:15-17:45 Cem Bozşahin (METU)

“Can Computation Give Rise to Meaning?”

17:45-18:00 Ceyhan Temürcü (METU)

“Beyond what is said: Conventional implication everywhere”

18:00-18:45 Marcus Kracht (University of Bielefeld, Faculty of Linguistics and Literary Studies)

“Understanding the Meaning of What is Said”

Concluding Remarks. *Opportunities for future collaboration*

18:45-19:00 Deniz Zeyrek

Reception 19.00-19.45
